

Bartimaeus Rehabilitation Services Inc.

Leaders in the provision of Rehabilitation Support Workers

We provide the highest standards of care to persons who have experienced the effects of a traumatic brain injury, spinal cord injury or other serious trauma.

WE ARE LEADERS

With over 34 years of service delivery, we have access to the most comprehensive pool of experienced Rehabilitation Support Workers in Ontario, ensuring the very best match between the individual requiring support and the Rehabilitation Support Worker.

Our Rehabilitation Support Workers:

- Have a minimum of five years of experience
- Hold certification in home and community based rehabilitation
- Have a relevant university degree or diploma
- Participate in ongoing support and in-service training under the direction of our Service Directors
- Maintain up-to-date criminal reference checks including vulnerable sector screening
- Are covered by professional liability insurance
- Provide client support in a variety of languages

Bartimaeus Rehabilitation Services Inc.

WE ARE UNIQUE

Bartimaeus values client-centred service delivery:

- We conduct a comprehensive matching process that promotes client choice.
- We encourage clients to interview and select the Rehabilitation Support Worker whom they feel would best suit their individual needs.
- We execute recommendations of the multi-disciplinary team through our whole client approach.

- We provide reliable and relevant communication to the treatment team in addition to standardized progress reports.
- We maintain ongoing support and quality control through our regional Service Directors to ensure the highest standards of client care.

OUR SERVICES

Available province-wide, our services ensure our clients receive cost-efficient local support, assist them in dealing with the challenges of their own environment and enabling them to achieve the very best recovery possible.

COMMUNITY SUPPORT

Our Rehabilitation Support Workers provide direct therapy and transitional support to individuals who exhibit social, emotional and/or behavioral difficulties which may prevent them from a successful re-integration into the community.

VOCATIONAL SUPPORT

Our Rehabilitation Support Workers are available to Vocational Assessment and Rehabilitation organizations to assist and support individuals who are experiencing obstacles in returning to work, or retaining work after an accident, illness or other major life event.

POST-SETTLEMENT SUPPORT

This service provides cost-effective support to individuals to maintain the gains they have made and to address ongoing psychosocial/emotional and behavioural issues. The service can be delivered in the community, the home or in a long-term care facility.

CONSULTATION, EDUCATION, AND TRAINING

Consultation services, educational workshops and seminars are available to family members and professionals who live and work with individuals who have an acquired brain injury.

Our Rehabilitation Support Workers provide service in a variety of settings:

- Home
- Work
- School
- Supported living environments
- Long-term and complex continuing care facilities
- Hospital and healthcare facilities

SERVICE DIRECTORS

Our regional Service Directors distinguish themselves by providing a value-added component to support service delivery.

They are available for ongoing consultation to the client, family and treatment team and possess a diverse base of experience in both public and private sectors.

Services Directors are:

- Located province-wide
- Knowledgeable and experienced in assisting in the design of appropriate client-centered goals
- Highly skilled supervisors
- Actively involved in ABI community associations, networks and fundraisers
- Able to identify appropriate community resources
